

Change of CEO at UNEEG medical A/S

Lynge, Denmark, 28. May 2018

It is a great pleasure to announce the appointment of our new CEO Torben Sandgren.

Torben has a track record of driving growth and innovation in major global healthcare companies across a number of medical device specialties including diabetes, Parkinson Disease, Ostomy, Advanced Wound Care, Urology as well as several specialties within general surgery. He comes from a position as Global Vice President, Sales, Marketing and R&D/IPR in ConvaTecGroupPlc /Unomedical A/S. Torben has accepted the important assignment of leading the transformation of UNEEG medical from being an organization with mainly R&D activities to becoming an international company with commercial operations.

Torben is replacing Rasmus Stig Jensen who will continue as COO. Rasmus has been running the company with great success since 2006. In the future he will be focusing mainly on his passion for product development. Rasmus has approximately 25 years of experience with entrepreneurship and project management of large scale, cross-border R&D projects and client/supplier contracts. Among those, Rasmus has 20 years of experience in line management and project portfolio management in large industrial companies such as Ansaldo and Alfa Laval.

“We make this change to assure, that UNEEG medical also in the future will bring new and disruptive products to the market designed to help and empower people. We would like to use this opportunity to thank Rasmus for a job very well done. Rasmus has led the company with tremendous competence during the first part of our journey” (Søren Westerman, Chairman of The Board & Co-owner at Widex)

The change is effective as of the 2. May.
